HOW DO WE ENSURE FAIRNESS TO CLIENTS OF COMPETING OR NON COMPETING BRANDS?

As a company policy, we will not engage two clients of similar brands at the same time except with permission of the first client and in any case the areas to be branded **MUST** never be the same!

The other method we use to ensure fairness on sites for non competing brands is that the teams that work for particular brands develop a passion for those brands and take it upon themselves to secure the best sites for them. Even if 2 teams from our firm are in the same area with 2 brands (which seldom happens), the fight for the best sites will be unforgivingly fierce!
